

Job advertisement AIHTA GmbH

HTA Austria - Austrian Institute for Health Technology Assessment (AIHTA) GmbH is an independent body for scientific decision support in the healthcare sector. We provide the evidence basis for decisions, aiming to support the efficient and appropriate use of resources. Our topics come from key decision-makers in the Austrian healthcare system (the umbrella organisation of Austrian social insurance institutions, the Federal Ministry of Health, the health funds of the nine federal states) and from the European Union. We work in a team of scientists from various disciplines (medicine, pharmacy, health sciences, psychology, health economics, etc.) and in cooperation with numerous healthcare practitioners. For this, we need support, and from **1 September 2025**, we are looking for a

Senior Researcher (full-time)

Your tasks

- Preparation of HTA reports on health technologies (especially medicinal products and medical devices), taking into account efficacy, safety, cost-effectiveness and organisational, ethical and social aspects
- Evaluating dossiers with clinical evidence, analysing comparative effectiveness and assessing the quality of the evidence
- Carrying out systematic reviews according to evidence-based criteria
- Preparation of decision bases for policy and professional committees
- Collaboration on interdisciplinary research projects with national and international partners
- Communication and exchange with stakeholders from research, health policy and clinical practice

Your profile

- Completed university degree (Master's or PhD), preferably in human medicine, biology or pharmacy
- Several years of professional experience in applied research or research projects
- Proficient knowledge of statistical methods in the field of HTA and EbM
- Several years of experience in scientific dissemination and communication (reports, presentations, publications)
- Ability to lead projects and work independently on projects

- Ability to work in a team and willingness to work with other disciplines
- Structured way of working and initiative
- Very good written and spoken English skills, good German skills are an advantage
- Ability to support juniors
- Excellent communication style, rhetorical skills and ability to communicate with different target groups
- Good MS Office skills
- Enthusiasm for working at the intersection between science, payers and service providers in the healthcare system

We offer

- Collaboration and exchange in a dedicated interdisciplinary team and at the European level
- Family-friendly working conditions, flexible working time models and the option of teleworking
- Opportunities for further training and conference attendance
- A minimum salary of € 3,692 gross per month; depending on qualifications and experience, a higher classification is also possible

If this position has raised your interest, please apply **by 31 July 2025** by sending your CV and letter of motivation with the subject line 'Job advertisement: Senior researcher' to office@aihta.at
